Additional Polo Clock Information

Easy wall mounting brackets. The Polo Clock comes with a simple bracket that allows you to very easily remove the Clock while not in use.

The Quick re-set function. If you ever have to stop the Chukka completely the Re-set function returns the hand back to zero in less than 12 seconds.

Power Source. The Polo Clock runs at 12v dc. We supply a Mains to 12v dc Power adaptor Or if you have no mains supply you can simply use a 12v Car Battery using cable supplied.

Power ON indicator. There is a bright L.E.D. Light cluster when Clock on.

Remote Control. The Remote control Start / Stop or Re set functions will allow you to operate up to 10 Clocks at the same time Fully Synchronised from '**OVER 250 yards**' away.

Easy wall mounting brackets. The Polo Clock comes with a simple bracket that allows you to very easily remove the Clock while not in use.

Club Logo. We will add your Club logo.. **FREE.** Just send us a good quality Jpeg.

Warranty. The Polo Clock comes with a 2 year warranty. If you do ever have problems this a return to factory. The motor assembly simply screws off, it is this that will be returned.

NOTE. The Polo Clock is a derivative of the Speedo Swimming Pace Clocks *that last for 20 years*
